

**STATEMENT OF CANDIDATE FOR
SAN JUAN WATER DISTRICT**

MARCIA L. FRITZ

Age: 62

Occupation: Small Business Owner

Education and Qualifications: As a fifth generation native of the Sacramento region, I was raised to take responsibility for our community and help build a better future for those who follow. Since the Gold Rush, my family assisted in forming and governing local organizations including the first telephone system in Citrus Heights which later merged with Roseville Telephone, the Natomas Mutual Water Company, and the El Dorado Irrigation District. My family also donated our Historic Home and farm to create Rusch Park and the Sunrise Recreation and Park District.

Following tradition, I served as president of the Citrus Heights Chamber of Commerce. I founded Hearts for Parks to support recreation programs, including a community marching band. I served on the Governmental Accounting Standards Board Task Force to improve pension accounting and financial reporting.

I graduated with honors from USC. As a Certified Public Accountant (currently inactive) I audited numerous water districts and understand their inner workings.

Powerful Southern California special interests want to take over our water. We worked hard for 150 years building an exceptional water system. I don't want to see it destroyed. Please vote for me. I will be a good steward of your trust. Contact me: 916-988-7027 or marciafritzco@gmail.com
