MEASURE J

PROPOSAL TO AUTHORIZE SPECIAL TAX FOR CITY OF ROCKLIN

To continue current efforts to keep park and recreation facilities safe, clean and well maintained, shall Rocklin City Ordinance No. 926 be approved which would allow the City to continue to collect a per parcel fee; such fee would be between $10.00 and $45.00 per year, adjusted annually for inflation, for a period of fifteen years to be used only for park maintenance and development?

YES ____   NO ____

IMPARTIAL ANALYSIS BY ROCKLIN CITY ATTORNEY

Effect of Measure on Existing Law

Under current law, the Rocklin Park Maintenance and Development Act of 1998 levies an annual special tax on all residential parcels within the City in the amount of $30 per year for each single-family dwelling. The assessment for each multi-family dwelling (condominiums, duplexes, triplexes, and apartments) mobile home units, and vacant residential lots ranges from $10 to $30 per year. The current tax has a 10 year sunset provision and will expire in June of 2009. The tax levy amounts have been unchanged over the term of the Rocklin Park Maintenance and Development Act of 1998.

This measure, if approved by two-thirds of the voters voting on the measure, would continue the annual special tax for Park Maintenance and Development and replace the existing special tax. The tax would increase the levy on residential properties to a base amount of $45 per year for each single-family dwelling. However, seniors age 62 and over are eligible for a discounted rate of $10 per year which is unchanged from the existing tax. The tax would be levied and collected in the same manner as the current Park Maintenance and Development annual special tax.

Operation of Measure

The measure would:

- Continue the current Park Development and Maintenance annual special tax. The amount to be levied would increase from the current amount of $30 per year per single-family residence to a base tax of $45 per year per single-family residence. The assessment for each multi-family dwelling (condominiums, duplexes, triplexes, and apartments) mobile home units, and vacant residential lots ranges from $10 to $45 per year.

- Include a senior discount program for eligible residents age 62 and over providing for a discounted rate of $10 per year which is unchanged from the existing tax.

- Provide for an annual adjustment for inflation based on the California Consumer Price Index for All Urban Consumers.

- Prohibit the City Council from increasing the tax rate without voter approval.

- Require the special tax revenues to be used only for park development and maintenance purposes.

- Include a sunset provision. The tax would have to be reauthorized by the voters in fifteen years; if it were not reauthorized, it would expire on February 15, 2023.

Fiscal Impact

The current revenues generated from the Park Development and Maintenance Tax of 1998 are approximately $495,000 for fiscal year 2007/08. If this measure is approved, the Park Development & Maintenance Tax revenues at the new assessment levels set forth in Ordinance No. 926, would generate an estimated $750,000.
ARGUMENT IN FAVOR OF MEASURE J

One of the greatest assets in the City of Rocklin is our network of parks and recreational opportunities. Today, we enjoy 30 parks—most designed to serve neighborhoods, while others are bigger and serve city-wide needs.

Our parks are exceptional and provide a variety of play structures, water parks, baseball diamonds, tennis and basketball courts, and soccer fields.

In order to support our parks, an annual park assessment was implemented 20 years ago, subsequently supported and renewed by voters 10 years ago. The current fee expires next year.

A group of residents asked the City of Rocklin to place this measure on the ballot so that the park assessment would continue. It’s not a new tax; rather a replacement of the old. For the first time in 20 years, we are asking for an increase. The new inflation-adjusted fee would be $45 per year for each household, or $3.75 per month. All funds will be used for park maintenance as prescribed by law. While these funds do not pay the entire bill for maintenance, they are vitally needed. Seniors 62 and older will be able to request a reduced rate of $10 per year.

By continuing this fee, we will:

- Ensure that our parks will remain clean and well-maintained, providing great places for our children and grandchildren to play and for our community to gather.
- Enhance property values in Rocklin because potential homeowners are attracted by quality parks.
- Support thousands of children who use our parks for a variety of sports leagues, including Little League, Soccer, and Girls Fast Pitch Softball.

Please join us in ensuring that our parks remain a high-quality asset for years to come. A “YES” vote will support our community and keep Rocklin a place where people want to live and raise families.

REBUTTAL TO ARGUMENT IN FAVOR OF MEASURE J

Measure J is a TAX INCREASE.

It doesn’t just extend a tax that would otherwise expire, it also raises that tax by 50% in the first year, then automatically increases the tax every year after that, whether they need it or not.

The proponents want you to believe that Rocklin is too poor to fund parks without this tax increase, but the truth is that Rocklin’s budget has doubled in the last five years, far out-pacing inflation. If the City Council wants more money for parks, they simply need to change their spending priorities.

This tax increase is a bait-and-switch tactic. They placed it on the ballot because they know we love our parks. If it passes, they can allocate even less of the existing tax revenues for parks and spend more on things voters would never approve, like the outrageously expensive fake rocks at the intersection of Highway 80 and Rocklin Road (which reportedly cost more than this tax will generate in a year).

In the face of historic, unanticipated budget increases for Rocklin, the City Council has responded by raising taxes even higher. Clearly, they have lost touch with Rocklin residents who are just trying to hold onto their homes in the wake of record foreclosures, dramatic reductions in home values, gas price increases, inflation, and the falling stock market.

As Ronald Reagan said, “A government big enough to give us everything we want is big enough to take away everything that we have.”

ARGUMENT AGAINST MEASURE J

This measure is both poorly crafted and poorly timed. Home foreclosures are at an all-time high, and so many of our neighbors are struggling just to hold onto their homes in the face of rising mortgage payments, increasing gas prices, and declines in the stock market. Our taxes are already too high, and this is the wrong time to raise them.

The City of Rocklin has nearly doubled its annual operating budget over the past 5 fiscal years due to rising property and sales taxes and it has plenty of money to maintain and expand parks. This is not a revenue problem, but a spending problem. Rather than spending these new tax revenues on parks, it chose to spend hundreds of thousands of dollars on fake granite rocks to adorn the I-80/Rocklin Road interchange and numerous other less important projects.

This tax is also horribly unfair because it continues the practice of unequal city taxation. Homeowners in Stanford Ranch and Whitney Ranch areas of Rocklin already pay substantial amounts of special taxes to the City of Rocklin, whereas most other city residents pay no special city taxes. Unequal taxation is unfair, and this tax only further burdens residents in newer areas of the city who are already paying more than their fair share.

Finally, the projects to be funded by this tax increase do not reflect the priorities of city residents. Before the city council tries to increase our taxes, they should consult with residents about what our priorities are and then fund those proposals. This measure is poorly crafted and poorly timed. We urge you to vote no.

REBUTTAL TO ARGUMENT AGAINST MEASURE J

The citizens of Rocklin have always supported our parks and schools because they know each is important to our quality of life, which is second to none in the Sacramento region.

For the first time in years there is opposition to extending the small investment Rocklin residents have been making to our parks.

Sadly, this opposition is not coming from residents of Rocklin. It represents the views of outsiders who have based their opinions on a narrow political and ideological agenda. They are not interested in the quality of our community or the quality of our parks. Their only interest is their narrow agenda.

It is now time, once again, to decide if the residents of Rocklin want to continue to make an investment in our parks to ensure they continue to be maintained at the high quality levels existing today. Civic and community leaders who live in Rocklin, of all political stripes, support the extension of the existing assessment as a common sense investment in a public amenity that will benefit the residents and children of Rocklin.

All money collected is used in our parks and residents 62 and older will continue to be eligible to pay the same $10 they pay today.

Join us in continuing our support for quality parks in Rocklin by voting Yes on Measure J.

Remember: Not a single signer of the argument against Measure J lives in Rocklin.

C. The special tax imposed hereby shall be collected in the same manner, on the same dates, and subject to the same penalties and interest in accordance with the established dates as, or with, other charges and taxes fixed and collected by the County of Placer on behalf of the City of Rocklin. Said special tax, together with all penalties and interest thereon, shall constitute a lien upon the parcel upon which it is levied until it has been paid, and said special tax, together with all penalties and interest thereon, shall, until paid, constitute a personal obligation to the City of Rocklin by the persons who own the parcel on the date the tax is due.

3.34.060 Reduction in rate; Tax adjustment

A. The tax rates imposed by this chapter are maximum rates and may not be increased by the City Council above such maximum rates.

B. The tax imposed by this chapter may be levied at a reduced rate or eliminated by the City Council for any fiscal year upon a determination by the City Council that, after such reduction or elimination, there will be sufficient revenues available to fund park development and maintenance for the ensuing fiscal year. Such reduction or elimination shall be effective only for the fiscal year following such determination.

Section 6. Within fifteen days of passage of this ordinance, the City Clerk shall cause the full text of the ordinance, with the names of those City Councilmembers voting for and against the ordinance, to be published in the Placer Herald.
