

**STATEMENT OF CANDIDATE FOR
ROSEVILLE JOINT UNION HIGH SCHOOL DISTRICT**

KATHLEEN ROJAS

Education and Qualifications: Public education fills a vital role for over 9,000 students in our district and greatly determines their future civic involvement and employment opportunities. Preparing students to capitalize on their academic potential requires maximizing every dollar of current funding available to retain outstanding educators with adequate compensation and high quality programs. I support prudent fiscal planning to maintain financial solvency through challenging economic times.

I have taught elementary, high school and college students, served as Chairperson for a national board of directors and currently practice law. I bring to the Board a teacher's perspective, a leader's ability and an attorney's skill for monitoring educational law and policy.

If elected, I will ensure the district's performance is readily communicated to the public whose tax dollars support it. I will work to increase graduation and college-placement rates, student achievement and improve accommodations for special needs students. I stand behind innovative learning approaches that prepare students for a competitive global society.

Let's shape R JUHSD into one of the best training grounds for a 21st century education in CA. By doing so, we promote the visibility of our schools, strengthen our district's reputation and boost our local economy by attracting others to our community.
